# Natural Dry Chicken Supreme Jerky

B&K's Chicken supreme jerky cuts are carefully dried to achieve natural shelf stable product. This is highly palatable and 100% natural.

Our raw material is procured from reputable suppliers (Godrej, Zorabia, Sethwala etc) having HACCP, ISO, GMP certification along with other essential quality marks.

Crude Protein: 50% (min), Moisture: 18% (max), Crude Fats: 3% (min)

## Formed Soft Chicken Jerky

B&K's formed chicken jerky is made with real chicken breast, mixed with other ingredients of human grade quality and dehydrated to perfection.

The chicken jerky strips can be made with many flavour of apple, banana, strawberry, Blueberries, mango, melon, it can be combined with vegetables, active ingredients and superfoods or other health benefits ingredients to gain an edge over other products in the market. Our meat jerky strips can be formulated with other protein sources with an option of gluten and grain free.

Crude Protein: 35% (min), Moisture: 18% (max), Crude Fats: 3% (min)

## Formed Soft Meat Sticks

Our meat sticks are super hit among dogs and can be formulated to meet any requirement of a customer. We have more than 40 different tested recipes having meat concentration ranging from 30% to 80% depending on what customer requires.

The basic formulations can be combined with real fresh fruits, veggies, active ingredients, different types of flours, flavours or colours to match any requirement a customer may have.

The final product can be cut into various size as required.

## Dog Food (Baked)

Our Premium / Super premium baked food offers you the best food for your dog. Our baked dog food is made with carefully selected and fresh ingredients to offer the best nutrition and taste for your furr-buddy.

Our slow baking process brings out the ingredients' flavours while also preserving the integrity of essential nutrients and proteins. Oven-baking allows the true, natural flavours of the meat and vegetables to be locked in, and the browning or caramelizing effect gives the food a rich, savoury flavour and enticing aroma.

## Hard Biscuits

Image for reference

The hard biscuit is made of refined wheat flour (maida) and gains volume after baking. Our hard biscuits are made with 100% human grade wheat flour and other high quality ingredients.

We can customise the shape, formulations and add real meat, meat meal, fruits, veggies or active ingredients and customize our standard recipe to meet any specifications.

Basic ingredients: Wheat flour, sugar, oil, colors, emulsifier, salt, permitted leavening agent and preservatives.

## Soft Biscuits

Image for reference

Soft biscuits are dense and made with low strength flour and high fat. These biscuits typically don't gain volume after baking.

Soft biscuits can be made with high concentration of meat or other ingredients such as fruits, veggies, actives and can be mildly of highly palatable.

Basic ingredients: Whole wheat flour, meat meal, vegetable Oil, sugar, emulsifier, salt, permitted leavening agent, color and preservatives.
